"WHISPERING MIND"

My humble and lovable salutations to this galaxy of elites and enthusiastic lovers of literature. My bosom blossoming brother the magical smiling Murali whispered in my ears whether I would mind participating in a magnificent function to ponder over a Majestic Book given birth to by Mr. Sashidharan, a member of Indian Audit & Accounts services. When Lord Krishna commands, it is done. Sweet words of Murali are always tasty and tellingly affectionate. Thanks Murali for conferring upon me such an opportunity to be part of the August assembly of My Lord Justice ARL with Lord Srinivasa & Lord Narayana, and other elites of this Cosmopolitan city.

The Mesmeric Master of the Art of living declares the design of the poems as matters' relating to the consciousness and it is refreshingly brings a sense of celebration of one's professional life. The effort of synthesizing such a vast areas of Yoga and spirituality in terms of poetry that is based on experimental knowledge is laudable. The All mighty Almighty is caressed into three forms. The young, the beautiful and the terrific. This concept is conceived into three divisions Spectrum of life, Rainbow of Love and Towards bliss in 54 Pearls woven into "This garment" which ultimately merges into the divine light.
